

Congratulations!

Congratulations to Jeff Wilson, our top sustainability employee volunteer in 2011. Jeff participated in all five of our recycling events at various store locations during the year and was recognized for his efforts.

Jeff is passionate about recycling and believes in 'walking the walk' when it comes to supporting efforts to protect our environment now and for future generations.

Buehler's was proud to be able to provide our communities with recycling events that allowed residents to properly dispose of used and potentially hazardous materials. All of our 2011 recycling events were well attended keeping many items out of local landfills.
